School-Work Transition is:

- an innovative teaching method
- a practical experience (on the field)
- a reinforcement of knowledge (enrichment)
- a guidance in the Education Curricula

It is strictly connected with the student's study plan.

#YESbxi

It is a cultural change
for the building of an Italian way to the dual system
which incorporates good European practices,
combining them with the specificities of the productive
fabric
and the Italian socio-cultural context
